SKIN TECH

Peelings & Daily Skin Care

ONE LIFE | ONE SKIN
Skin Rebirth SL is one of the first companies that, since 1996, offers to the market extremely effective skin rejuvenation products, under the brand Skin Tech.

The full range of Skin Tech products is composed of 2 principal groups which complete each other: peelings, addressed to the medical professionals (dermatologists, physicians and/or plastic surgeons), and daily care creams that the patients apply after peeling treatments to reinforce its effects.

Easy TCA is the most famous and internationally known Skin Tech brand medium depth chemical peeling for skin regeneration. Considered as the safest, the most effective and the easiest peeling with TCA (Trichloracetic Acid), the Easy TCA is used to treat fine lines, photo-aging, teenagers skin problems, acne scars, pigment problems (hyperpigmentations), melasma, chloasma, keratoses, hands, forearms, stretch marks, “age spots”, etc.

Skin Tech Daily Care is composed of a large number of creams especially formulated to help and protect the skin in the process of its regeneration during and after peeling treatment. One of the latest Skin Tech’s creations is a daily care cream which is indicated to the local fat tissues augmentation. Atrofillin is not only to refill the subcutaneous tissue by increasing fat accumulation in adipocytes, but also to make the appearance of skin tissues uniform and to remove the lentigine of lipofuscin.

Skin Rebirth’s research laboratory continuously launches new methods -as anterior chemoabrasion for acne scars and stretch marks, new products and evolutions -as the new formula of deep peeling. This is why Skin Tech is a main actor operating in the field of aesthetic medicine, surgery and dermatology, proposing the unique concept of peeling which allow the totally predictable results.
Skin Tech offers a full range of peeling depths, from epidermal up to reticular dermis peels, effective, easy to use and particularly reliable.

1. Easy Phytic Solution: Epidermis (+ dermal stimulation)
2. Easy TCA: Basal Layer - Grenz Zone
3. Unideep: Papillary Dermis
4. Only Touch: Focal Reticular Dermis
5. Easy Phen Light: Interface Papillary Dermis - Reticular Dermis
6. Lip and Eyelid Formula: Deep Reticular Dermis
Easy Phytic Solution

Self neutralizing (without neutralization)

- Glycolic + Lactic + Mandelic + Phytic acids (60% pure acids)

Strong rejuvenation

Interface papillary - reticular dermis peel against photo-aging

**HOW TO USE**

**OPTIMAL ACTION**

**DEEP WRINKLES - AMAZING REJUVENATION**

Optimal and long lasting results

Deep reticular dermis peel against photo-aging

**HOW TO USE**

**OPTIMAL ACTION**
To optimize peeling results whilst keeping secondary effects to a minimum, **Skin Tech** daily care products are the perfect complement for all types of skin.

### Protective

- **IPLase Mask**
  - Post treatment cream.
  - Daily protection for skin subjected to all types of aggressive treatment and medium-deep peeling.

- **Malablock-HSP SPF 50+, 30**
  - Sun protection 4 in 1 (physical + chemical sunscreens + antioxidant + HSP stimulation).

- **Vit. E Anti-oxidant**
  - Moisturizing and anti-oxidant cream for sensitive skin.

- **Actilift**
  - Cream with lifting effect.

### Active

- **Atrofillin**
  - Global anti-age complex. Dual action: Clarifies and evens the skin & improves dermal thickness quality.

- **Nutritive Cream**
  - Vit A-C-E Lipoic Complex
  - Moisturizing, anti-aging super anti-oxidant cream (post peel, post laser, smokers’ skin, etc).

### Specific

- **DHEA-Phyto**
  - Moisturizing and anti-aging cream.

- **Purifying Cream**
  - For skins with acneic tendency, inter and post peel or post laser cream.

- **Purigel**
  - Non-oily gel for skins with acneic tendency, for a long term daily treatment.

- **Blending Bleaching Cream**
  - The reference control against pigmentation.

- **Cleanser**
  - Cleansing pH5 foam for sensitive skin.
**Active ingredients:**
- Sodium Lauroyl Oat Amino Acids
- Disodium Lauroamphodiacetate
- Sodium Trideceth Sulfate
- Lactic Acid
- Glycerin

**Indications:**
- Gentle elimination of impurities accumulated on the skin.
- Well tolerated by skins that have become sensitive following dermatological treatments.
- Does not modify skin permeability.
- Specially suitable before and after peeling treatments.

**Presentation:**
- Bottle containing 150 ml

---

**Active ingredients:**
- Tocopheryl Acetate
- Glycyrrhetinic Acid
- Biosaccharide GUM-1
- Urea
- Dextrin
- Alanine
- Glutamic Acid
- Aspartic Acid
- Ceramide-3
- NMF (Natural Moisturizing Factor)

**Indications:**
- Moisturizing and anti free radical action after peelings, abrasions, sunburn or laser treatment.
- Protects the skin from external aggressions.
- Immediate and durable moisturizing.

**Presentation:**
- Tube containing 50 ml
Active ingredients:
• SOD
• Ubiquinone
• Heat Shock Proteins (HSP) inducer
• Vitamins A, C, H
• Methionine
• Organic Silicium
• Urea
• Bifida ferments extracts
• Chondrus Crispus extracts

Indications:
Helps to prevent damages that are potentially induced by therapies that cause inflammation or a significant increase in skin temperature (laser, intense pulsed light, UV radiation, thermalogenic radio frequencies, radiotherapy, etc). Also specially recommended after medium-depth and deep peelings.

Presentation:
Sachet containing 3 ml

Active ingredients:
• Physical sunscreen agents
• Chemical sunscreen agents
• Heat Shock Proteins (HSP) inducer
• Antioxidants - anti-inflammatory agents

Indications:
Activation of the natural synthesis of Heat Shock Proteins (HSP) which defend the skin against protein destruction and thermal cell lysis which occur, for example after an increase in temperature of just a few degrees.

Sun block with micronised titanium dioxide combined with a blend of stable chemical sun filters. Protection against more than 98% of UVA and UVB. Daily protection specially designed for use after peelings, laser, pulsed light or demabrasion treatment.

Presentation:
Tube containing 50 ml
REVITALIZING DAILY CARE

Nutritive Cream
Vit. A-C-E Lipoic Complex

Anti-aging · Multivitamin and anti-oxidant daily care

Active ingredients:
- Retinyl Palmitate
- Tocopherol Acetate
- Ascorbic Acid
- Ceramide-3
- Urea
- Glycyrrhetinic Acid
- Phytic Acid
- Thioctic Acid

Indications:
Prevention of skin aging. Skin damaged by the sun or smoking. Prevention of oxidative damage after sunburn, or chemical or laser treatments. Anti-oxidant moisturizing and/or erythema reduction following sun exposure, laser, peeling or dermabrasion treatments.

Presentation:
Tube containing 50 ml
WHITENING
Blending Bleaching Cream
Active ingredients:
- Tyrosinase inhibitors complex (Morus Alba, Kojic Dipalmitate, Licorice extracts, Glabridine, Liquiritine, Mulberroside F)
- Tocopheryl Acetate
- Glycyrrhiza Glabra extract
- Retinyl Palmitate
- Allantoin

Indications:
Prevention and/or treatment of hyperpigmentations. Also very efficient before and/or after laser treatments, peelings, dermabrasions and depilation. Slows down skin oxidation and free radical activity, and help to keep skin smooth and fair.

Presentation:
Tube containing 50 ml

FOR MATURE SKIN
DHEA-Phyto Cream
Moisturizer · Anti-aging

Active ingredients:
- Dioscorea Villosa root extract
- Biosaccharide GUM-1
- Urea
- Aspartic Acid
- Glycyrrhetinic Acid
- Dextrin
- Alanine
- Glutamic Acid
- Ceramide-3

Indications:
Anti-aging, after age of 40. Moisturizes the skin and protects against free radicals, restores skin balance. To be used alone or combined with peelings in anti-aging treatments.

Presentation:
Tube containing 50 ml
FRESH & OIL FREE GEL FOR YOUNG SKIN WITH PROBLEMS

Purigel
Long-term skin care

Active ingredients:
- Tricosan
- Salicylic Acid
- Burdock extract (Arctium Majus extract)
- Sulfur
- Methionine and Acetyl Cysteine
- Camphor
- Menthol
- Allantoin

Indications:
Cleanse the skin of impurities due to teenage or middle-age hormonal imbalance.
Long-term treatment to prolong the effect of medical treatments.

Presentation:
Tube containing 50 ml

FOR YOUNG SKIN WITH PROBLEMS

Purifying Cream
Pre-peel preparation · Daily care between peeling sessions

Active ingredients:
- Glycolic Acid
- Retinyl Palmitate
- Tocopheryl Acetate
- Tricosan
- Glycyrrhetinic Acid
- Tea Tree Oil

Indications:
Cleanse the skin of impurities due to teenage or middle-age hormonal imbalance.
Pre-peel preparation and daily treatment to prolong the effect of laser, peelings or medical treatments.

Presentation:
Tube containing 50 ml

PREPARE FOR YOUR TEENAGERS’ SKIN PROBLEMS

NOT OILY

Purifying Cream
Daily care for young skin with problems

Active ingredients:
- Glycolic Acid
- Retinyl Palmitate
- Tocopheryl Acetate
- Tricosan
- Glycyrrhetinic Acid
- Tea Tree Oil

Indications:
Cleanse the skin of impurities due to teenage or middle-age hormonal imbalance.
Pre-peel preparation and daily treatment to prolong the effect of laser, peelings or medical treatments.

Presentation:
Tube containing 50 ml
Active ingredients:
- Acetyl Hexapeptide 38
- Kojic Dipalmitate
- Aminoethylphosphinic Acid
- Morus Alba leaf extract
- DMAE

Indications:
Daily care cream, with skin volumizing and lightening properties. The specific combination of active ingredients helps getting great results, improving skin tone, increasing skin brightness and reducing symptoms of fragility or dryness. Atrofillin shows hence a dual action: it clarifies and evens the skin; it improves dermal thickness quality.
